

# MORNING APPEAL

Official Paper of Ormsby County.

SATURDAY.....JULY 22

## Down They Go.

Retrenchment in the expenses of running the Comstock mines has begun in dead earnest. At the annual meeting of the Savage Mining Company the directors on motion of Attorney W. S. Wood, made a heavy cut in the salaries of all officials. Not one escaped. In some cases the reduction amounted to 50 per cent. The Superintendent of the mine, who had been receiving \$400 per month, was cut down to \$200. The President's salary, which had been \$250, was fixed at \$125. The Secretary had been receiving \$250. He was reduced to \$125. The clerk at the Virginia office was cut down from \$200 per month to \$100.

These reductions were voluntarily made in the interest of retrenchment and to help along the movement for the general reduction in expenses along the Comstock, including transportation, wood, lumber, water and other supplies and miners' wages.

At the same meeting the following directors were elected by the Savage Company: George R. Wells, Chas. H. Fish, Thomas Anderson, W. S. Wood and Herman Zadig—the last named in place of W. E. Miles, one of the old directors. George R. Wells was appointed President, Chas. H. Fish Vice-President, E. B. Holmes Secretary and R. P. Keating Superintendent.

Mrs. Victor Muller, Miss Brulin and Miss Miller left yesterday for the Lake.

Dave Crosby of the Comstock was in town yesterday, pricing the Keeley cure.

Silver finds new champions every day and the cause of free coinage goes marching on.

A horrible story comes from Georgia. Women convicts are farmed out to work on plantations, brutally flogged, as were slaves before the war, and trailed through the swamps with bloodhounds when they try to escape. The details of the affair are simply sickening.

The Silver men of Nevada State have made arrangements to send a strong delegation to the Chicago Convention and meetings are to be held throughout the State for the purpose of joining our sister mining States in their fight for silver coinage. Why not hold a meeting in Grass Valley, the largest mining "camp" in the State?—Grass Valley Tidings.

At the Heath trial in Fresno Monday, Grove L. Johnson, the well-known Sacramento attorney, scored Messrs. Foote and Deuprey mercilessly for their abuse and arraignment of witnesses. The speech was a masterly one and the San Francisco attorneys have engendered a feeling through the State by their conduct in this case which they will never be able to throw off, despite their ability.

## Must Run.

Several protests have come to this office because of the scratching of Givevich from the Beauty race. Men who have bought pools on him say that everything connected with his withdrawal is rank with fraud, and a job of the first water. Unless he goes back they propose to clean out the judges' stand. This is correct and Givevich accordingly goes back on the track to-day.

## JOE MULLER'S SHAPE.

He Delights in His Long Legs and Pompadour.

"Why do you publish a cut of that old walrus, Bill Crisler?" asked Joe Muller, yesterday, as he called at the office to collect a bill for hams.

"What's the matter with me? I'm no moving mountain of soap fat. I may be a little long in the legs, but that's all the rage at the Bay.

"My brother Vic has been posing on his shape for some years, but I'm inclined to think he's losing his grip. He's been round trying to keep girls from voting for me, but in spite of that I'm now fourth in the race.

"Vic never could hold a candle to me as a baby; why, when he was about two years old our parents didn't even think of showing him to the neighbors, he was so awful homely, while I was on exhibition all the while.

"If I don't win the prize it will be because there is crooked work at the polls.

"Why don't you put Givevich back in the race? His backers got scared and drew him out. I want him put back to stand off Watson and take votes away from him.

"Yes, my best girl is working like a beaver for me, and tells me I have a sure thing."

Following is the vote:

## BEAUTY CONTEST.

NAME:

## The Jeffris Bigamy Case.

Sacramento, July 20.—In the trial of Geo. B. Jeffris to-day for bigamy, Frank Miller, president of the D. O. Mills Bank, gave his testimony on signatures. He testified that the Jeffris signature on the register of the Arcade Hotel and on the marriage license affidavit book of San Francisco were written by the same person. The San Mateo records were produced, also with the signature of Eugene C. Jeffris on the marriage license book. Miller said he thought the San Mateo signature was written by the person who signed Geo. R. Jeffris in the San Francisco books. The license book containing Jeffris' name when he applied for a license to marry Nellie Eby and also the San Francisco license book bearing his signature were produced, and the witness said he thought they were written by the same person. On cross-examination Miller said the San Francisco signature showed evidence of being forged. He summed up by saying he believed the three license signatures submitted were written by the same person.

## A Dying Miner's Request.

W. S. Bothill, a miner and prospector of Duranpo, Col., committed suicide the other day. Upon his body was found the following note written in a clear, legible hand:

"I take this poison because the world is too hard. Tell the people to instruct their congressmen and senators to pass a free and unlimited coinage act 16 to 1, and the United States will be the most prosperous nation on earth. Good bye boys.

## Wanted an Antimony Mine.

Any one having an antimony mine or a borate of lime ledge in Nevada, can find a buyer by communicating with Chas. T. Oldham, Box 411 Santa Clara, Cal.

## THE CARSON RIVER.

The Fight for Its Waters in San Francisco.

The Mill men of the Comstock and the ranchers of Mason Valley are now fighting for the possession of the stream in San Francisco.

The testimony of a great array of witnesses is being taken before T. D. Edwards of this city. This gentleman has been appointed special examiner for this purpose by the United States Circuit Court. In that tribunal this great controversy is pending in the form of a suit of equity, brought by the Union Mill and Mining Company against Farmer Dangberg and 104 other tillers of the soil.

The testimony is being taken in the law office of W. S. Wood, 9 Nevada block. The witnesses thus far examined have been Charles Jones, Frank Tagliabue, James Morgan, James Thompson, Henry Epstein, C. B. Abernethy, J. M. Baldwin (the two last named being the original locators of the Belcher mine), Oscar C. Steel, Charles Shad, James Hamilton and Isaac Butts.

These are all old-timers of "Washoe." Their testimony supplies an interesting history of both milling and irrigation in Carson Valley. The suit of the Union Milling and Mining Company, plaintiff, embraces (under the rule established by United States Circuit Judge Sawyer in the Woodruff-Slickens case) the claims of many other mills in the same category, namely, the Mexican Mill, the Brunswick, the Santiago, Nevada, Franklin, Woodworth and Rock Point. The contention is that each of these mills is entitled to 7000 miner inches of water during all seasons, both as riparian owners and as prior appropriators.

The farmers claim to have appropriated the waters of the river before use thereof by any of the mills.

The Mexican Company claims that its ditch and flume, constructed in 1860, still exists, and has sufficient capacity to carry all the water it now claims.

It will be several weeks before the testimony is all in and may be several years before a final decision is rendered.

## THE KEELEY INSTITUTE.

It is Now Open and Ready For Business.

The Keeley Institute in this city is now open and in full running order. The carpenters, painters and paper hangers have made the interior very attractive and four times a day the patients file in and get their "shot" as they call it, which consists of a hypodermic injection of medicines, prepared by Dr. Keeley.

A large invoice of medicines arrived yesterday. Dr. Sussdorff has full charge, and his patients have already the fullest confidence in his work.

The writer met one of them on the street yesterday. He had been treated but four days, but he says he has already lost the desire to drink. At first he was skeptical, but now he swears by the cure.

The patients all wear pleasant smiles on the street, as if they enjoyed the inward feeling that before long they would be entirely free from the liquor habit.

W. C. Watson, Manager of the Institute, has received a quantity of literature which he desires to distribute in the town, showing the many encomiums of praise received from graduates. Any one desiring to read the papers will be accommodated by calling at the Institute. For terms of treatment and all other information address The Keeley Institute, P. O. Box 609, Carson City Nevada.

Five hundred thousand dollars in gold was shipped to the United States on Friday last. It was gathered up from various sources among the British bankers and was not obtained at the Bank of England.

It would be well to observe, if it were possible, where that British coin disappears. It was a like sum on a like occasion in 1873 which debauched an American congress and according to the confession of Mr. Earnest Seyd secured the demonetization of silver. Will British gold be again made potent? Let the people of the United States observe closely the coming contest in Washington.
